

Chartres Boulevard Block Paving

Data Sheet

a Forterra brand

Large modular paving with an olden or bush hammered finish which has been specifically designed for use in pedestrian areas where architectural heritage is a major consideration. Comes in 80 and 100mm[†] thickness to special order, with a variable coursing width of 225mm and 275mm. Consisting of seven various sizes, each layer contains twelve separate paving blocks that are delivered in a standard laying pattern which can be varied to suit individual designs. Chartres edging has been specially designed to complement the range.
