

Brick type: Atherstone Buff Multi
Location: Essex

Project Architect: Weston Homes
Developer: Weston Homes

The choice of the brick plays a vital part in establishing the exclusivity of this sought after scheme. The use of Forterra's Atherstone Buff Multi pressed bricks provides a heritage feel to the development and helps it to blend harmoniously with the surrounding area.

The Barringtons

The Barringtons, in the historical Essex market town of Rayleigh, is a stunning development of 14 three and four bedroom houses.

Each of the five types of houses, built by Weston Homes, has allocated parking through open spaces, car ports or garages and is finished to an extremely high specification.

The choice of the brick plays a vital part in establishing the exclusivity of this sought after scheme. The use of Forterra's Atherstone Buff Multi pressed bricks provides a heritage feel to the development and helps it to blend harmoniously with the surrounding area.

The bricks are part of Forterra's Ecostock range, manufactured at the company's new £50 million Measham factory. Here Forterra uses the latest groundbreaking technology in sustainability and production efficiency to offer advanced colour consistency, dimensional accuracy and quality.

At the Barringtons the high quality brick work reflects the high quality interiors and sets the tone for the whole development.
